Benson Memorial United Methodist Church Preschool and Kindergarten Prep is committed to providing an effective part-day program which takes into account and provides for the emotional and educational needs of young children. We provide a safe and secure environment where children are encouraged to be social, independent and creative. We strive to enhance each child's self-knowledge, self-esteem and inner discipline.

Benson Memorial United Methodist Church Preschool and Kindergarten Prep has been following the NCDHHS Public Health Toolkit interim guidelines for childcare centers since we reopened for the fall of 2020. At this time our program is not able to offer all of the specials and enrichment activities we normally do; we hope to offer our program as outlined in this paperwork for the fall of 2022. However, it is possible we may have to alter program offerings to meet best practice guidelines. You will be made aware of any program restrictions or modifications in August before the start of the school year or as recommendations and requirements are updated by NCDHHS.

Curriculum Information

We practice a child-centered emergent curriculum, providing intentional, meaningful learning experiences, with a strong focus on literacy. Our curriculum addresses the following developmental domains; social/emotional development, physical development, cognitive development, language development and communication skills.

Visit our web site to download our full curriculum for more detailed information at <http://www.bensonmemorial.org/preschool/curriculum/>

We use *Foundations: Early Learning Standards for North Carolina Preschoolers and Strategies for Guiding Their Success* to determine age appropriate goals and objectives for our students. This publication provides early learning standards and expectations for developmentally appropriate practice. *Foundations* is a guide for teachers, administrators, families or any adult working with preschool children in North Carolina.

We incorporate strategies from Dr. Becky Bailey's **Conscious Discipline** into our curriculum. **Conscious Discipline** is a comprehensive classroom management program and a social-emotional curriculum. Our staff members receive ongoing **Conscious Discipline** training.

Many of our teachers have also been trained in **Handwriting Without Tears**, which they skillfully integrate into our curriculum. **Handwriting Without Tears** is a developmentally appropriate handwriting program.

We will introduce our students to the **Letterland** characters and provide the ideal foundation for kindergarten and the **Letterland** phonics program offered by the WCPSS.

In order to prepare the children for kindergarten...

- We engage children in activities for visual learners, auditory learners and kinesthetic learners.
- We enhance oral language development and phonemic awareness.
- We offer poems, rhymes and alliteration while learning about each letter in the alphabet.
- We experiment with a variety of writing activities and opportunities.
- We use songs, dictations, stories, poems and finger plays to enhance both oral and receptive language development.
- We use show & tell, webbing and brainstorming to enrich vocabulary.
- We collaborate while problem solving and critically thinking as a team. This allows the children to acquire mathematical concepts while enhancing their communication skills.
- We offer a variety of experiences and activities to encourage familiarity with letter sounds. This includes having a letter of the week in the fours program.
- We incorporate literacy rich experiences in all facets of our program.
- We begin to introduce sight words to our prekindergarten students.

ENRICHMENT PROGRAMS

To enhance our curriculum we offer a variety of enrichment programs.

Each Week

All students attend *Music class*. In music class students are introduced to basic music appreciation involving an understanding of the elements of music, musical forms, musical styles and the enjoyment of participating in class.

Regularly Scheduled and Monthly Programs

Five-day students three and older participate in *Spanish*. They are introduced to greetings, family members, body parts, numbers, colors, common everyday items, days of the week and much more.

STEM Class - Students in the threes class and older will participate in this hands-on class covering topics such as sinking and floating, life cycles, static electricity and others in a small group environment.

Chapel - Our senior Pastor and children's Pastor offer chapel opportunities. Chapel is a time to share stories from the Bible that will enrich children from any religious or non-religious background. Our intention is for each of our students to know they are loved by God and Christ without any judgment.

Letterland/Literacy- Students will participate in a literacy enrichment activity designed to expand the literacy curriculum beyond the classroom.

Movement Class - This is a gross motor activity class. Students in the threes class and older will enjoy activities such as parachute games, ribbon stick dances, scarf dances, and obstacle courses, just to name a few.

Occasional Programs

Occasionally, on-campus visitors will also be scheduled. We like to have the NC Museum of History teach about times past and the Raleigh Parks and Recreation staff teach about native flora and fauna, just to mention a few.

Field Trips

Parents of children enrolled in the four-year-old program and Transition class should expect field trips. There are typically four to six field trips planned in a calendar year. They are designed to enrich the curriculum and foster a sense of community.

Discipline Policy – please retain this copy for your records

When it comes to discipline, the American Academy of Pediatrics recommends establishing a positive, supporting and loving relationship with your child. Without this foundation, a child has no reason, other than fear, to demonstrate good behavior. They also recommend the use of positive reinforcement to encourage the behavior you want from your child.

(The above script is part of the American Academy of Pediatrics (AAP) radio series 'A Minute for Kids,' which airs weekdays on WBBM-AM in Chicago, IL.)

NAEYC, the National Association for the Education of Young Children, promotes positive guidance. Positive guidance focuses on helping children learn the expectations for behavior as well as what it means to be a member of a community. It means helping children learn from their mistakes and make positive choices.

Keeping the above in mind, our staff incorporates Dr. Becky Bailey's Conscious Discipline into our curriculum. Conscious Discipline is a proven, comprehensive approach that empowers adults with the skills to create a safe, connected, problem-solving classroom environment. Conscious Discipline also equips teachers with skills to integrate social-emotional learning, discipline and self-regulation, thus reducing time spent policing behavior and increasing time teaching vital skills.

Policy

We will provide appropriate discipline using positive reinforcement and logical consequences to encourage competence, self-control, self-direction, and caring for others. Staff will maintain open communication with parents regarding behavior management and effective discipline.

The Staff and Board at Benson Memorial UMC Preschool Programs have outlined the following strategies for appropriate and effective discipline using the training we have received in Conscious Discipline.

Here are some strategies for strengthening positive, appropriate behavior:

- Maintain a safe emotional atmosphere where children feel warmth and affection, and where trusting relationships are built on positive, supportive interactions.
- Provide a consistent routine in the form of scheduling daily activities.
- Develop a predictable classroom environment.
- Have developmentally appropriate expectations.
- Define and teach expectations.
- Model appropriate classroom behaviors.
- Acknowledge appropriate behavior and respond consistently to challenging behavior.
- Provide positive reinforcement for positive behavior.
- Provide support for undesired behaviors. Listening to and talking with children about what we see and strategizing how to better solve problems or tackle challenges.
- Respond consistently to similar situations and behaviors so that expectations are clear.
- Encourage children to recognize their own behaviors and the behaviors of others, while learning what emotions may be causing these behaviors. We also encourage the children to use words to express their emotions.

COVID-19 CASES

What happens if someone in your child’s class tests positive for COVID-19 or has symptoms of COVID-19. Below please find the guidance from the State.

	If a person screens positive for COVID-19 symptoms at entrance or develops COVID-19 symptoms during the day at the facility	If a person who was at the facility tests positive for COVID-19
Exposures	Children and staff who have been in close contact with a person who screens positive for COVID-19 symptoms or develops symptoms during the day should be kept in a contained cohort that is separate from others, ideally in another room. For example, if there was a symptomatic child in a classroom, the staff and children who were in the classroom should remain together and not mingle with other staff or children from a separate classroom. This should continue until a negative COVID-19 test result is obtained. As this could take several days, the children and staff who were close contacts with the symptomatic person should continue to remain in a separate cohort. If children and staff who were close contacts are not able to remain in a separate cohort, they should quarantine for 14 days since last exposure to the symptomatic person. Children and staff in that cohort should be screened carefully and monitored closely for symptoms throughout each day, and any of them developing COVID-19 symptoms should be immediately sent home and assessed by their healthcare provider. Consult with the Local Health Department for further guidance.	The Local Health Department will determine who is a close contact to a person with laboratory confirmed COVID-19, and what the next steps should be. To prevent further spread, close contacts should remain in quarantine at home for 14 days after their last known exposure to the person, unless they test positive (in which case, criteria in the "Returning to Child Care" section would apply). They must complete the full 14 days of quarantine even if they test negative.

To summarize, if a child or teacher has or develops COVID-19 symptoms, they should stay home or be sent home. They should be assessed by their healthcare provider as soon as possible. The remaining members of cohort/class may continue to attend class unless the Local Health Department determines otherwise. Should someone in a class test positive for COVID-19, the Local Health Department will determine what the next steps should be for the class and school. However, the class/cohort will most likely be quarantined as they would likely have had close contact with the person testing positive for COVID-19.

Should a class be quarantined that class will “go remote” for the quarantine period. On normal class meeting days the teachers or substitutes will provide a combination of Zoom meeting and Facebook group activities and interactions for the students.

For return to school information after being quarantined, please contact the Preschool Director, Shannon Luxford. She will contact the Health Department for the most up-to-date guidance on your particular circumstances.
